Top Quality Spare Parts

We are committed to delivering only the best.

Our priority is quality, ensuring the reliability and longevity of your machinery.

To ensure your equipment continues to perform at its best, using quality spare parts is essential.

World-class Machinery Solutions Drill Parts is your trusted partner in providing top-quality spare parts that enhance the longevity and performance of your mining equipment.

Service:

Expert Support

Our team of experts is always available to provide technical support and advice, ensuring you get the right parts for your equipment.

Quality Assurance

Our spare parts are of the highest quality, ensuring durability and reliability, keeping your vehicle running smoothly.

Competitive Pricing

We offer competitive pricing on all our spare parts, providing value without compromising on quality.

Fast Delivery

We understand the importance of minimizing downtime, which is why we offer fast and reliable delivery services to get your parts to you as quickly as possible.

Our Wide-Ranging Catalogue Includes:

Drill Bits and Accessories: From standard drill bits to specialized accessories, we have a complete range to suit various drilling applications and conditions.

Hydraulic Components: High-quality hydraulic pumps, motors, cylinders, and valves designed to meet the rigorous demands of your Sandvik and Atlas Copco machinery.

Wear Parts: Durable and long-lasting wear parts that minimize downtime and maximize the lifespan of your equipment.

Filters and Seals: Essential filtration and sealing solutions to ensure optimal performance and protect your equipment from contaminants.

Electrical Components: Reliable and efficient electrical parts including sensors, switches, and wiring harnesses.

Engine and Transmission Parts: Comprehensive selection of engine and transmission components to ensure peak performance and reliability.

Pneumatic Parts: High-performance pneumatic components tailored for your specific equipment needs.

Customized Solutions: If you have unique requirements, we offer customized parts solutions to meet your specific operational demands.
